

Students'
empowerment
through school
environment

classroom desks + current digitality = the project

Co-funded by the
Erasmus+ Programme
of the European Union

Erasmus+ KA229 project "Students' empowerment through school environment" 2020 -2023

The coordinator country is Estonia, partner countries are Bulgaria, Turkey, Slovenia and Sweden. The project partnership exchanges their best practices and searches for new solutions for improving the schools' learning environments (physical, digital, intellectual, psychological). The purpose of the project is to improve and modernize environments of the partner schools. The partner schools learn from each other, look for common solutions, develop new ideas for improving the school environments that can be implemented during or after the project.

The project aims are:

- to develop students' key competences by means of digital distance work in eTwinning, participation in the students' exchanges and local project work in the schools. The key competences are: fluency in English, intercultural communication, social and civic skills, digital competence, initiative, learning to learn.
- to make improvements in participating schools' learning environments making them more empowering, student-friendly, person-centred, creative, sustainable and effective.

Project contact person at school: teacher of English Oksana Vogt

The perfect school environment

1. Tech stuff

Every classroom should have smart boards and every student should have a personal tablet (Ipad)

2. courtyard and animalsov

Little garden inside the school, where students can relax

3. Computer programmes

Pro versions of computer programmes (Canva, Sketch up pro...)

4. Relaxing rooms

A place where we can relax and release built up stress

IDEAL PHYSICAL SCHOOL ENVIRONMENT

A VARIETY OF SCHOOL FACILITIES

- multimedia rooms
- workshop (arts and crafts) rooms
- (theatre/ ted talks) stage
- sport grounds
- service area
- labs
- exam classrooms
- cinema
- well-equipped laboratories

A GARDEN

it is perfect for taking a break from the standard learning in a classroom, which can become very stressful and monotone

A BIGGER GYM AND FITNESS CENTRE

great for improving the physical health of students

A CAFE FOR HANGING OUT

a place where you can go in between lessons to relax, have a cup of coffee and hangout with friends or study for your next lesson

CANTEEN

where students can get a cheap and healthy warm meal.

A BIG LIBRARY

it is very convenient to have a library where students can study in peace, or borrow books for expanding your knowledge

Students' empowerment through school environment
